GERBER® Commercial Products —

Solutions for schools, high rises, manufacturing, commercial buildings, assisted living facilities and hospitals.

Commercial applications demand the highest quality, most consistent materials and parts in the industry. Since 1932, Gerber has been a leader in the plumbing fixtures industry by focusing on and earning the trust and respect of plumbing professionals.

Over the decades, Gerber has become synonymous with quality and performance by offering an impressive lineup of commercial products including, toilets, urinals, lavatories, faucets and drains. Gerber's comprehensive lineup is sold exclusively to the plumbing professional and is supported with "Best-in-Class" customer service.

GERBER

Why GERBER®

DISTRIBUTION - Our national professional distribution network.

VALUES - We are committed to our customers, our employees and our planet. Gerber employees strive to deliver world class products and support that reflect our passion for excellence.

QUALITY AND SERVICE - Quality and reliability is our top priority, and every Gerber employee is charged with maintaining and delivering on that promise. Our North American based customer service team is empowered to provide real solutions to drive customer satisfaction.

WARRANTY - Our products are among the most reliable out there and we are proud to stand behind them with industry leading warranty coverage and support.

GERBER® Pressure-Assist Toilets

Gerber pressure-assist toilets are a true high-performance, low consumption alternative to gravity-fed models and are hydraulically designed to “push” contents out of the trapway.

Powered by the SLOAN **FLUSHMATE** Pressure-Assist operating system, Ultra Flush® toilets feature maximum bowl clearing and line carry. The proprietary trapway design precisely balances push and pull forces for an industry leading flush while a larger water surface in the bowl reduces odors and keeps the bowl cleaner by reducing the dry surface area, thereby decreasing housekeeping time.

GERBER® Gravity Fed Toilets

The Avalanche offers top rated flushing technology with the most powerful and effective gravity flush on the market today. The Avalanche operates with an average maximum performance or (MaP rating) of 1000 grams - which is the highest rating available.

More head pressure via a taller, slimmer tank design, feeds water faster through the large 3" flush valve which accelerates water flow within the bowl, producing a more powerful flush. Unique jets and a large water surface keep the bowl pristine and rinses the well thoroughly without back-splash.

For Back Outlet Spud Bowls, please see page 15.

GERBER® Spud Bowls

Spud bowls use line pressure direct from the supply line for greater power than a tank based toilet. This is particularly desirable in high use commercial applications which need a high level of durability, consistency and power that a tank version can't provide.

Spud bowls are more compatible with commercial buildings which house predominantly in-wall plumbing.

HIGH EFFICIENCY TOILET
HET

GERBER® Hygiene and Medical Scrub Sinks

Medical environments demand a high level of imperviousness, durability, hygiene, and dependability. Hand hygiene sinks benefit those environments where hygiene and cross-contamination control is of concern. As hospitals and medical facilities strive to reduce the risk of patient contamination and infection for inpatient care, Gerber hygiene and medical sink options can make a significant difference in strengthening those environments.

GERBER® Commercial Faucets and Flush Valves

The right faucet or flush valves are essential components for completing a commercial space. Durability, consistency and accessibility are key to choosing the right model and manufacturer.

Gerber products have been trusted for over 80 years and our reputation for quality gives you the security of choosing a product that is made to exacting product specifications and the highest of standards.

CO-44-393

RESTAURANT

COMMERCIAL FAUCETS

Ideal for: Public Restrooms, Schools, Manufacturing Facilities, Medical Facilities, Office Buildings.

SINGLE HOLE METERING FAUCETS

MODEL	DESCRIPTION
44-346	Single hole

- Solid brass construction
- Vandal-resistant aerator and vandal resistant screw
- Slow self close cartridges
- 10-30 second adjustable run time - preset to 10 seconds
- Lead free waterway per ANSI 372
- 0.25 gallons per cycle, @ 60 psi
- 4" deck plate sold separately
- CEC compliant
- Durable chrome finish

THREE HOLE METERING FAUCETS

MODEL	DESCRIPTION
44-340	4" Centers

- Color-coded handles
- Solid brass construction
- Vandal-resistant aerator and vandal resistant screw
- Slow self close cartridges
- 10-30 second adjustable run time - preset to 10 seconds
- Lead free Waterway per ANSI 372
- 0.25 gallons per cycle, @ 60 psi
- CEC compliant
- Durable chrome finish

SINGLE HANDLE BATHROOM FAUCET

MODEL	DESCRIPTION
C0-44-934	With metal pop-up drain
C0-44-932	With grid strainer and plug
C0-44-951	Less drain, with plug

- Vandal proof metal lever handles
- Ceramic Cartridge with temp limit stops
- Solid brass construction
- Extra long all brass handle
- Lead free per ANSI 372
- 0.5 gpm maximum aerator @ 60 psi
- 4" centers
- CEC compliant
- Durable chrome finish

COMMERCIAL FAUCETS

Ideal for: Public Restrooms, Schools, Manufacturing Facilities, Medical Facilities, Office Buildings.

TWO HANDLE BATHROOM FAUCETS

MODEL	DESCRIPTION
C4-44-551	With metal pop-up drain
C4-44-542	With grid strainer and plug
C4-44-541	Less drain, with plug

- Centerset with color-coded, vandal resistant handles
- Solid brass construction
- Ceramic cartridges
- 0.5 gpm maximum aerator @ 60 psi
- 4" centers
- Lead free per ANSI 372
- CEC compliant
- Durable chrome finish

TWO HANDLE BATHROOM FAUCETS

MODEL	DESCRIPTION
CO-44-551	With metal pop-up drain
CO-44-542	With grid strainer and plug
